Polyester TGIC-Free Super Durable Powder Coating

Compliant with **AAMA 2604**, this finish offers excellent weather-resistance properties for high-performance architectural exterior applications.

Finish	Gloss†
smooth glossy	80-95+
smooth semi-gloss	55-65
smooth satin	26-35
smooth matte	16-25
fine texture flat matte	0-15

† Some gloss levels may vary. Please consult individual Technical Data Sheets for specific gloss values.

* Gloss levels measured in accordance with ASTM D523 at a 60° angle. This method does not apply to metallic effect powder coatings. Measured gloss levels for effect powder coatings may vary from the values stated in this Product Data Sheet. The creation of tolerance samples is recommended.

Disclaimer

Availability is subject to factory confirmation. Color representation may vary between on-screen and printed materials. Physical samples are available upon request, limited to a maximum of three (3) samples per customer.
